Photography.

The style of our agent photography is aligned to what the Place brand represents. For all agent images, whether they are professional profile images or bespoke agent shoots for marketing collateral, that style is open, friendly, and focussed around lifestyle.

All images will be finished in greyscale for a more consistent and professional appearance, except where cultural sensitivities dictate otherwise.

Lifestyle Shoot

Place recommends that agent photography to be used on agent marketing collateral follow a lifestyle look and feel.

If you are engaging David Roberts at Frnk to develop bespoke collateral, a photo shoot can be quoted and organised as part of that process.

Alternatively, you can directly engage Place photography partner, Stuart James Photography, or your preferred supplier to order a shoot.

Seasonal Campaign Mail Cards

DL & DLX

Throughout the year the Place Corporate Marketing team will run seasonal or topical marketing campaigns based on what is happening in the market at that time.

Agent focussed mail cards will be developed for each campaign so that agents can capitalise on the broader marketing investment with a more targeted and personalised message.

** Please note that due to the seasonal nature of these mail cards, they will not be set-up as permanent templates in CampaignTrack. You will be able to order the card via the usual process but the artwork will then be created offline by the Idealist team for a small fee. Prices are based on the design following an existing template. If a fully bespoke design solution is required a quote will be supplied by Idealist following an initial brief of requirements.*

Reasons to Sell Mail Cards

Postcard, DL & DLX

The “Reasons to Sell” is our 2022 Sellers Campaign that is designed to be evergreen, not seasonal, and suitable for use across the entire year.

These mail cards invite potential vendors to contact the agent and discuss current marketing information, along with providing some general statistics about Place.

You can choose from a range of images with corresponding messages for the front of the card, whilst the message on the back is static.
